Welcome to the third edition of the Library News Bulletin. Continue reading for the latest news, events and featured resources at West Suffolk College Library.

Easy Reading Move

Our easy reading section has moved to a new location; it will now be located at the back of the main shelves. Please ask a member of library staff if you require assistance. We are making this move to improve the accessibility of the collection and make a far more inviting reading space.

Milburn Centre Library

Trudy and Stephen have been reviewing library provision at the Milburn centre. Existing stock is being reviewed with the aim of buying new books that appeal to student interest. Students have been surveyed and it is anticipated that changes will be made in the near future.

Subject of the month — STEM

The subject of the month this month is STEM (science, technology, engineering and maths). Come down to the library to have a look.

Electronic Resources - Focus on CINAHL

- CINAHL is a leading health database; material can be accessed via a library+ search or by going directly to the CINAHL database from the ‘A-Z Databases’ link on the library homepage
- Provides full text article access across 50 nursing areas, speech and language pathology, nutrition, general health and medicine.
- This database is a ‘must use’ for all health students; it enables you to cite plenty of up to date information and raise the quality of your work.

The Library will be holding an ‘Awareness Week’ from 12th—16th March.

Come into the library to find out about library services and resources. Staff will be on hand to demonstrate and speak about library resources.

Library Quiz

The library quiz was cancelled due to snow; a new date will be announced in due course.
